

## **Lord's Supper Talk**

Temper tantrums, bad attitudes, pouting, teasing... This may sound like a child to others but it can also be a 41-year-old father of 5. It is tough sometimes to arrive at the table and examine ourselves thinking we got it all together yet we expect greatness and precise discipline out of our children.

### **Mathew 19:14**

**Jesus said, "Let the little children come to me, and do not hinder them, for the kingdom of heaven belongs to such as these."**

We can all have a bad week or two or even a month or season and the Lord still loves us.

On Sunday Morning around this time, we reflect inward, ask for forgiveness and a renewed strength, and partake of the Lord's Supper.

Our children love Jesus they didn't drive to church and they did not pay the bills this month and yet we hope that one day they will sincerely and genuinely understand the sacrifice that our Father has bestowed upon us.

Sometimes I think of how happy and joyful kids can be when you come home from a long day's work and they just want you to hold them and be with them and not let go.

That comfort and joy and happiness is what I think about when We will someday be with our Father in Heaven.

Let us not take this time that we have at this table together for granted.

### **Prayer:**

Father as we receive these emblems help us to remember that every day is new and that we can start over. If you can turn graves into gardens then you can truly turn this old boy into someone ready to do your will and live a life dedicated to your earthly ministry.

In your name we Pray,

Amen.
